

## Something to ponder

"Is it time to dismantle the Pyramids, (Built by slaves)?

...

Is it Time to dismantle the Taj Mahal (Built by slaves)?

...

Is it time to dismantle the Great Wall of China, (Built by slaves)?

...

Is it time to dismantle the Parthenon (Built by slaves)?

...

Is it time to dismantle the Colosseum (Built by slaves)?

...

Is it time to destroy the Roman Roads throughout Europe, (Built by Slaves)?

...

Is it Time to dismantle the Sultan Amed Mosque in Istanbul (Built by slaves)?

...

So many of the worlds most beautiful and iconic buildings were all built by Slaves of ALL creeds and colours. The list is endless-So should we therefore destroy all of our human heritage and history because people today are so historically ignorant, uneducated, and unwilling to listen or talk properly without shouting, and as such they have no real idea or concept of the sacrifices made on their behalf by their ancestors to ensure they are and will remain free through us remembering and accepting that NO form of slavery is acceptable?.

We can't change the past by simply erasing it, no amount of money will change the feelings that would still remain either, BUT we can learn from it and move forward. For too many years History has been Bastardised so much that it has promoted Racism through misinformation to suit a narrative.

We are not born Racist - Racism only exists if we let it, if we "pigeon hole" people into groups, if we "label" groups or individuals, and as I said before if we bastardise history to suit a narrative.

We all bleed Red, and at some time in history we are all descendants of slaves, be it 50, 500, or 5000 years ago.

**EVERY** life matters.

Food for thought."
